

My family lives in a rural community bordered on one side by the ocean and the other by a mountain range. Our radio systems are limited, and we have been greatly blessed by the KLOVE radio network. It is the only station we feel comfortable letting our five children listen to, it is also uplifting and encouraging for us adults as well. We and others in our community would be deeply affected if our KLOVE station were replaced by a LPFM station. Please consider the effects of such a decision on the rural population around the US. Thank you for your time. Elena and Devin Johnston
